

SACH Engineering & Construction

WHERE EXPERTISE & EXCELLENCE
GO HAND IN HAND

Our clients and partners represent some of the largest and most established companies

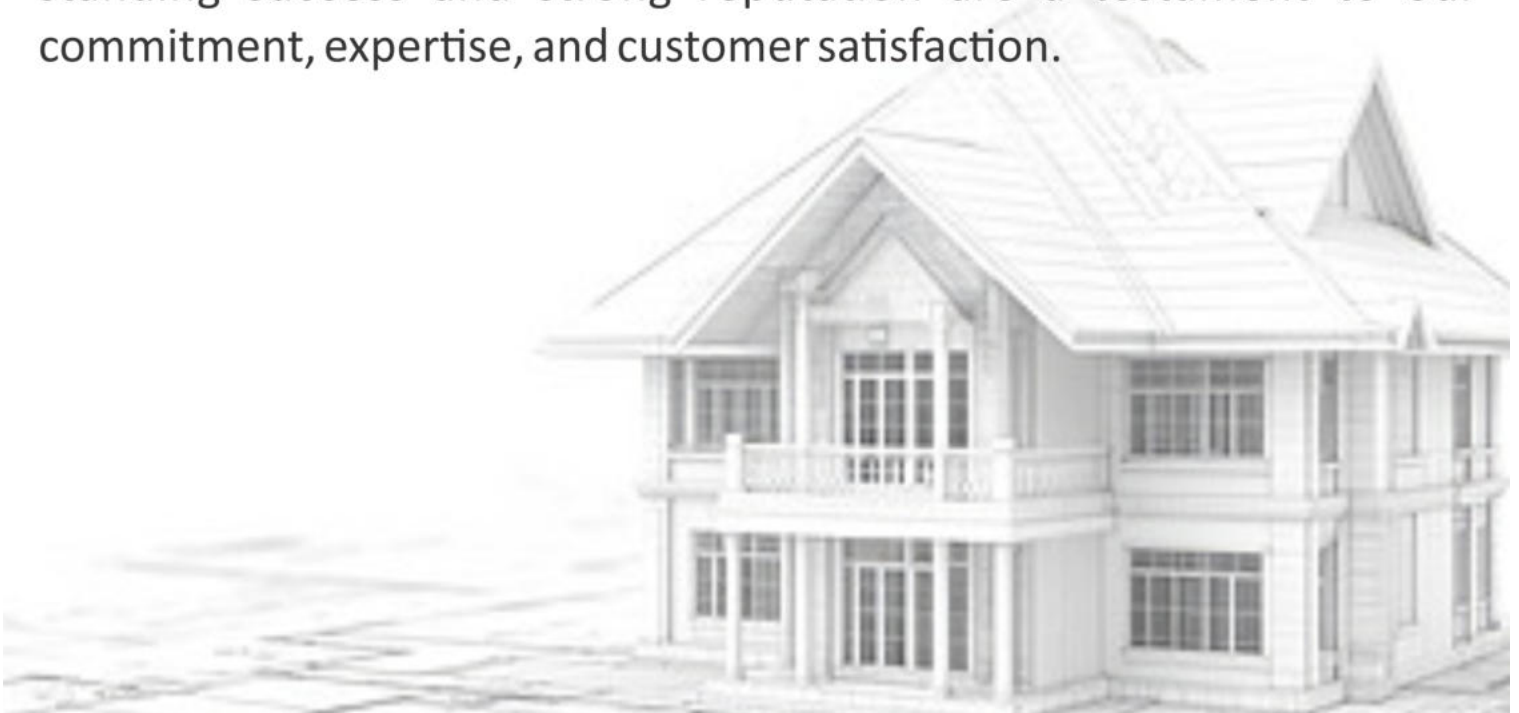

SACH Engineering And Construction was founded in 2014 by the Muhammad Shabir Akram CH as a construction engineering consultancy. Later, under the leadership of Mr. Muhammad Shabir Akram CH as a CEO , the company expanded rapidly and achieved remarkable growth. Over the years With over 12 years of hands-on industry experience, we specialize in delivering projects efficiently without compromising on quality. Our focus is always on meeting client requirements, completing projects on time, and staying within

WHO

WE

ARE

and staying within budget. We have successfully completed a wide range of projects across multiple sectors, including residential, refurbishment and restoration, hospitality, commercial, and industrial developments. Our success is built on a client-focused approach and close involvement at every stage of the project. A large portion of our work comes from repeat clients, which reflects the trust and confidence our customers place in us. Our experienced team, attention to detail, and commitment to innovation allow us to deliver reliable results every time. At SACH Engineering And Construction, we are dedicated to providing high-quality projects and true value for money. Our long-standing success and strong reputation are a testament to our commitment, expertise, and customer satisfaction.

Our Mission

At SACH Engineering And Construction, Our Mission Is To Become A Trusted Leader In The Construction Industry By Consistently Delivering High-quality Results. We Strive For Excellence In Every Project By Embracing Innovation, Improving Processes, And Raising Construction Standards With Each New Challenge We Take On.

Our Vision

Our vision is to lead the future of construction by setting new benchmarks in quality, sustainability, and innovation. We aim to combine modern technology, environmentally responsible practices, and creative thinking to deliver outstanding solutions. Through continuous growth and teamwork, we seek to expand into new markets, take on diverse projects, and create lasting value for communities—leaving a strong and positive impact for generations to come.

Quality Policy

At SACH Engineering and Construction, we believe that delivering high-quality, safe, and clean services is the foundation of our success. Our processes are structured, well-planned, and aligned with industry standards. Being certified by the Pakistan Engineering Council reflects our commitment to organized workflows, proper training, and planned execution—ensuring reliable and consistent project delivery.

Our People

Our people are our greatest strength. We take pride in our family-oriented culture and carefully select skilled and dedicated professionals. Teamwork is at the heart of everything we do, with a strong sense of mutual support and collaboration. Each team member brings valuable skills, experience, and fresh perspectives, and we actively invest in their growth by developing their abilities and offering increasing levels of responsibility.

Project Management

We provide professional project and construction management services, acting as a trusted Client Representative throughout the project lifecycle. Our role includes coordinating all project activities, managing contractors and consultants, and ensuring that work is executed smoothly, efficiently, and according to the agreed scope, quality, and timelines.

Our Services & Capabilities

At SACH Engineering and Construction, we bring together a strong network of construction resources that allows us to efficiently deploy skilled teams and modern construction techniques. With deep knowledge of local conditions and hands-on experience managing culturally diverse workforces, we ensure smooth project execution from start to finish.

Our team includes experienced professionals in field construction, construct ability analysis, and performance engineering, enabling us to handle projects with precision and confidence.

Clients trust SACH Engineering and Construction to successfully deliver complex and demanding construction projects—always on time and within budget.

We believe that every detail matters. That's why we give special attention to even the smallest elements of a project, ensuring the highest quality standards are met at every stage.

We expertly manage the unique requirements of advanced systems and construction processes, allowing our clients to focus on operating their new or upgraded facilities. Our expertise spans a wide range of building types, including towers, educational institutions, industrial projects, and more. Experience the perfect balance of quality, innovation, and beauty.

Hospitality Projects

At SACH Engineering and Construction, we deliver specialized construction solutions for hotels, resorts, and hospitality facilities. From luxury renovations to complete new developments, we focus on every detail to create welcoming, elegant, and highly functional spaces that elevate the guest experience.

Residential Projects

We offer end-to-end construction services for residential developments, including single-family homes, multi-unit projects, and luxury residences. From concept design and architectural planning to final finishes, our experienced team ensures every home reflects the client's vision, lifestyle, and comfort.

Commercial Projects

We offer end-to-end construction services for residential developments, including single-family homes, multi-unit projects, and luxury residences. From concept design and architectural planning to final finishes, our experienced team ensures every home reflects the client's vision, lifestyle, and comfort.

Industrial Projects

We provide reliable construction solutions for industrial facilities such as factories, warehouses, distribution centers, and industrial complexes. Understanding the demands of industrial operations, we design and build flexible, efficient spaces that enhance productivity, streamline workflow, and meet industry standards.

Our Commitment to Excellence

Over the years, SACH Engineering and Construction has built strong expertise across all major areas of construction. This experience enables us to deliver real value to our clients—whether through smarter design solutions or cost efficiencies in procurement and execution. We actively embrace innovative engineering technologies and modern construction techniques to meet project goals effectively and efficiently.

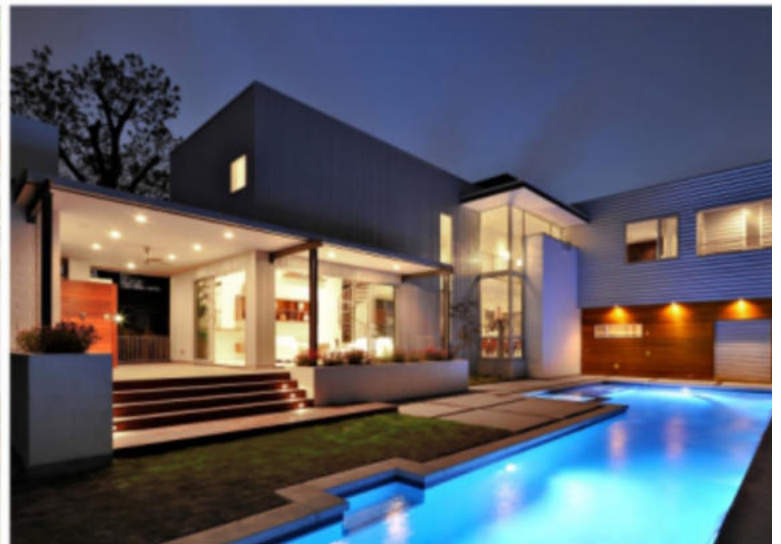

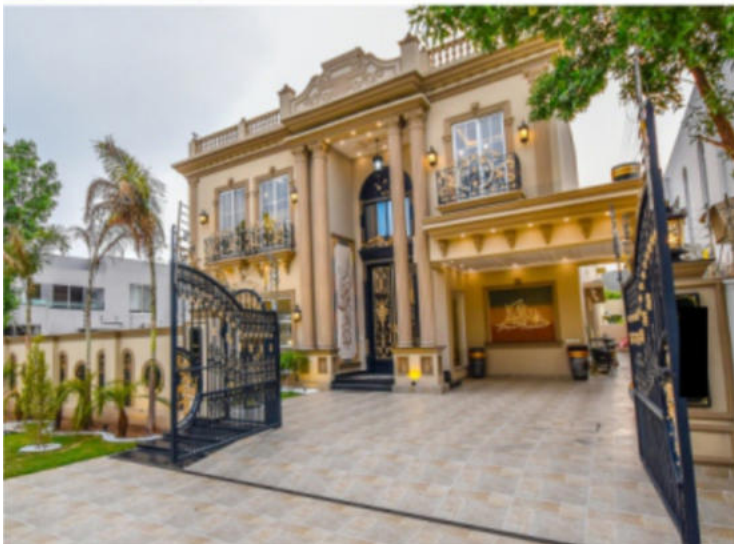

Our success is driven by well-established procedures, clear guidelines, and proven management systems that ensure every project is executed smoothly. Our skilled field teams play a vital role in this success, bringing dedication, creativity, and technical excellence to every stage of construction.

By maintaining strict quality controls and technical standards, we ensure that each project is delivered with precision, reliability, and the highest level of construction excellence.

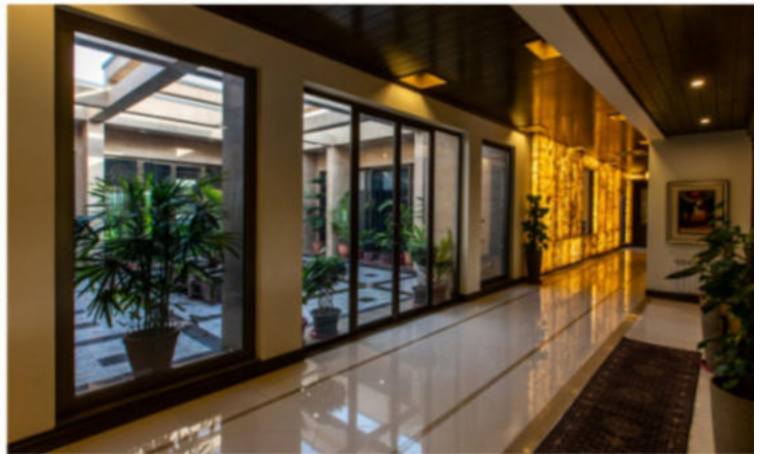

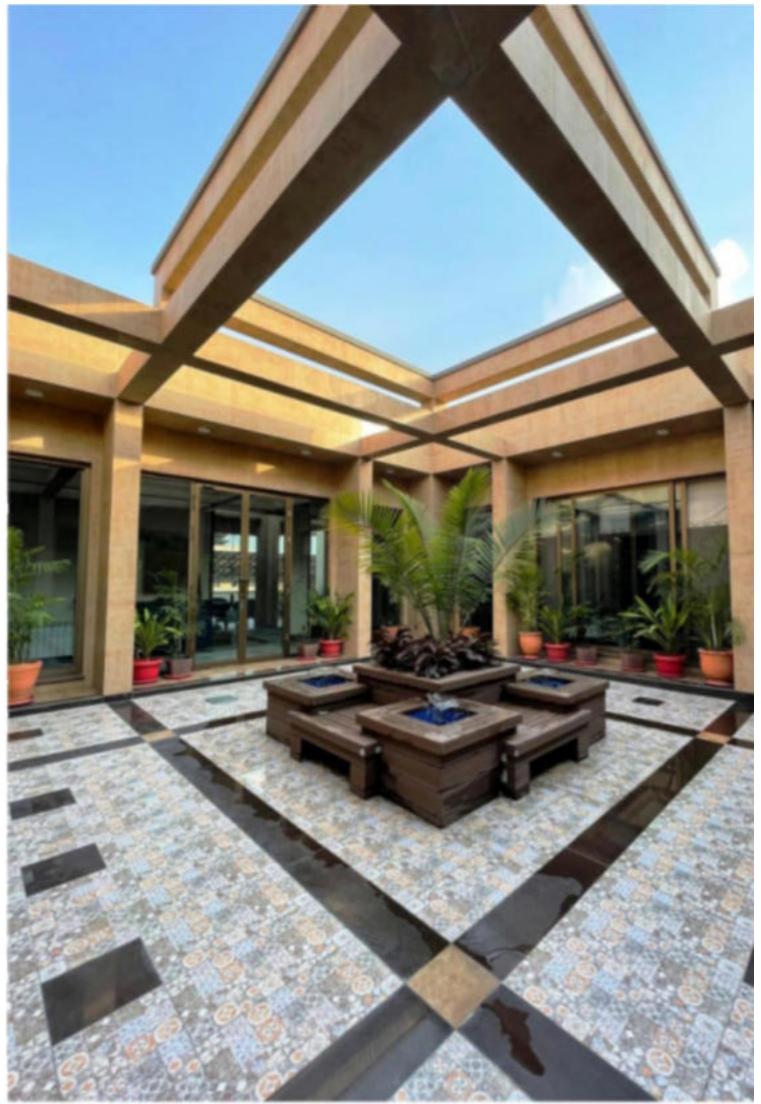

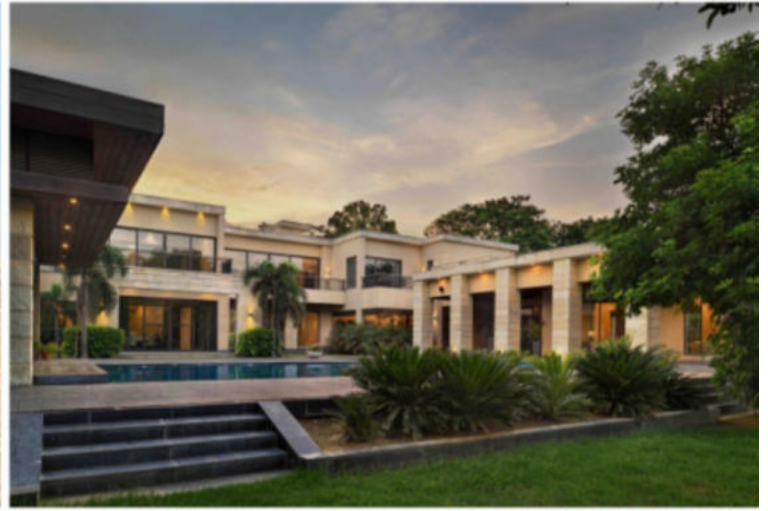

**"The destination
with exqulsite
experlences
and meaningful
moments"**

“In our industry, a thorough plan is key to the project success irrespective of its scale or complexity. Our technical and operation teams work hand in hand. at every phase of the project to find the best manufacturing.”
